

Better Packages Water-Activated Tape

Better Pack Tape™

Improve Package Strength and Security with a Professional Carton Seal

Better Packages offers a full line of Better Pack Tape designed to create a superior seal on your corrugated cartons. Water-activated tape (WAT) offers advantages other carton sealing methods do not. It is the preferred choice of packaging professionals when strength, security, employee safety, professional appearance, and recyclability are critical. A wide range of paper and reinforced water-activated tape in natural and white is available in many lengths and widths along with custom-printed tape with up to four colors.

Why Use Water-Activated Tape?

- **WAT is Strong:** Just one strip will hold the heaviest cartons
- **WAT is Secure:** It provides a tamper-evident seal that discourages theft
- **WAT is Safe:** It is applied using a tape dispenser, not a hand-held tape gun that can lead to repetitive motion injuries
- **WAT is Professional:** One strip, printer-friendly, is all you need to secure your carton
- **WAT is Sustainable:** It is recyclable, biodegradable and repulpable

Better Packages Water-Activated Tape

Maximum Package Strength and Security

Better Pack Tape literally bonds with the corrugated carton. Once applied, it is impossible to remove Better Pack Tape without tearing the carton's surface, leaving a visible indication that the seal was broken.

Reinforced Tape Grade	BP Part Number	Size	Rolls per Case	Cases per Pallet	Feet per Case	Color	Case Weight (lbs)	Pallet Weight (lbs)
Standard	KR375-8	70mm x 375'	8	75	3,000	Natural	19	1,455
	KR375-3	3.0" x 375'	8	60	3,000	Natural	20	1,230
